The Swiss public sanitoriums are located in the Alps, or in the Jura mountains, and their elevation above the sea level is from 800 to 1000 yards. A potent force in conjunction with the capital seasons the with the sanitoriums has been the federal factory inspection service, which for years has placarded factories with instructions as to how to avoid the white plague. Public bureaus also sprang up, with a service corresponding to the tuberculosis nurses of many American cities. These supplied the nursing and expert advice, but allowed the family of the patients to furnish their own food and clothing. One of the most important works done by these bureaus was the sending of children in infected families to the country, where they would not be subject to its dangers. The Woman's Association of Public Utility was a tower of strength in this work, as was also the Red Cross. The government took a hand in comwere not sanitary, and consequently apt to breed tuberculosis, to change their structures to conform with the ideas of the sanitary inspectors.

IF HAIR IS TURNING GRAY, USE SAGE TEA

Here's Grandmother's Recipe to Darken and Beautify Faded Hair

That beautiful, even shade of dark, glossy hair can only be had by brew ing a mixture of Sage Tea and Sul phur. Your hair is your charm. It makes or mars the face. When it fades, turns gray, streaked and looks dry, wispy and scraggly, just an ap plication or two of Sage and Sulphur enhances its appearance a hundred

Don't bother to prepare the tonic; you can get from any drug store a 50 cent bottle of "Wyeth's Sage and Sul-phur Hair Remedy," ready to use. This can always be depended upon to bring back the natural color, thickness and lustre of your hair and remove dandruff, stop scalp itching and falling hair.

WILLIAMSON-GRAHAM ...

Marriage of Well Known Young People Last Evening Was Pretty Home Event

The marriage of Miss Cecelia M. Graham and Verne D. Williamson Graham and Verne D. Williamson was solemnized last evening at the home of the bride's parents, Mr. and Mrs. George A. Graham, 1726 Valencia street. The Graham home was charmingly decorated with ropes of asparagus ferns and marguerites, the crowning feature being a wedding bell of the marguerites interspersed with ferns and suspended in the archway between the living room and the parlor. Under this stood the young couple as they took upon themselves the wedding vows enunciated by Rev. Chas. H. DeWolfe, the minister who conducted the impressive ring cereconducted the impressive ring ceremony. Before the ceremony Thomas Govan sang "Till the Sands of the Desert Grow Cold," and Percy Lusk played the Lobert Grow Lobert Grow Lobert Grow Lusk played the Lohengrin Wedding March, which announced the approach of the wedding party. Master Willie Graham, the bride's brother, walked with his sister Alberta, the latter prettily gowned in pale ring in a calla lily, scattered rose those present were petals before the bride and her father braving the showers. as they advanced to the altar where they were met by the bridegroom and the minister.

Miss Graham was closely associated, lations the guests viewed the lovely tokens of friendship. A delicious wedding collation was served, after which the bride donned her traveling costume of tailored blue serge with matching accessories. Mr. and Mrs. Williamson will spend their honeymoon at Los Angeles, Pasadena and the beaches. They will return here for a short time only, as tney expect to reside at Hemet, where Mr. Williamson has purchased a ranch. He has been with the local Edison company for several years past, but wishes to improve his ranch property. Both Mr. and Mrs. Williamson have a large circle of friends who will regret their depart-ure from Santa Ana, but who will wish them happiness and substantial prosperity in their new home.

those who witnessed the pretty ceremony last evening, besides Mr. and Mrs. Graham and family, were: Mrs. Wright and daughter Florence, of Pasadena; Mr. and Mrs. Thomas Govan of Los Angeles; Mr. and Mrs. Edgar McDowell and Mrs. Hilda Mc-Dowell of Hemet; Mr. and Mrs. George Stewart of Tropico; Mr. and Mrs. wm. From the Los Angeles Financial News

Easy Money Likely

Commenting on monetary conditions for the current month, a New York special declares that easy money is likely now the new year has turned. Says the dispatch:

In view of the strained monetary conditions abroad for the last two years, with resulting heavy demands upon New York for our gold, the exports this year alone, including the metal shipped to Canada, amounting to about \$80,000,000, it is reassuring to observe that conditions abroad promise relaxation. The reduction of the minimum rate of discount of the Imperial Bank of Germany already made has had good effect in investment circles and all indications point to a lowering of the Bank of England minimum after the turn of the year. Nothing definite has as yet been obtained regarding the immediate money prospects in France owing to the postponement of the National loan. The very best authorities have been on record for some time past as predicting an easier condition of the domestic money market, now the turn of the new year has come. They make the point that this would be only following precedent in former years regardless of political or general business considerations. As it is, the banks now hold twice as much actual surplus reserve as at this time last year. Conservative people who are basing their ideas upon crop and other solid considerations, such as our present exceptionally large foreign credit balances, insist that if money piles up in the next month or two, the prevailing extremely low prices of prime securities and the almost unprecedented range of choice available, must appeal to the experienced in-

In the closing week of 1912, call money ranged between 1½ and 12 per cent. In the first week of January, 1913, however, the banks gained \$13,829, 940 cash, of which \$13,512,940 came from the interior. In the same week of 1912 there was a net gain of \$4,224,000, and in the first week of 1911 an increase in money was shown of \$10,762,000.

In the week ended January 9, 1913, time money figures declined to the lowest since the autumn of 1912. In the second week of January, 1913, the known movements of money indicated a gain in cash of \$22,781,060, of which \$18,766,060 was from the interior and \$4,015,000 from the sub-treasury. The gain in money in the last week of 1912 and the first two weeks of 1913, amounted to \$40,834,000. There was only a small gain in surplus reserve in the second week of January, 1913, owing to the fact that actual bank loans rose \$60,586,000, and deposits increased in the extraordinary amount of \$84,447,000. In the third week of January, 1913, the banks gained \$19,675,370, of which \$13,675,370 came from the interior and \$6,010,000 from the sub-treasury. Our banks had been drawn upon that week for \$8,000,000 gold, shipped to Paris. In the fourth week of January, 1913, there was a loss of \$11,128,000 by the banks to the sub-treasury, including gold exports, but this was offset to the extent of a net gain of \$3,000,000 by receipts from the interior of \$16,409,120

\$4,000,000 shipped abroad. At the end of January, 1913, time money was quoted at 3¼ @3½ per cent for 60 days, 3¾ @4 per cent for 90 days, 4 per cent for four months and 4@4½ for six months. Ruling figures are from 1 to nearly 2 per cent higher than the foregoing. Commercial prime mercantile paper was discounted with 1/2 per cent of the extreme low figure of 1912, which was 31/2 per cent, or 2 per cent below the mini-

with shipments of \$2,366,380. In the following week the banks gained from the interior \$13,002,670, but

lost to the sub-treasury nearly \$10,000,000, including

mum at the present time.

The money movement in 1911 and 1910 were almost exactly similar in January and February to those referred to and this country in each of the last three years was called upon to ship gold to Europe more or less heavily. It is interesting to note than in almost every year there were toward the end of January and in part of February very heavy increases in the loan accounts of the New

Tends Toward Monarchy

Protesting against "manifestation within the last ten years of a tendency to change the American democracy into a monarchy," counsel for the Mid-West Oil Company, headed by Joel Fred Vaile of Denver, filed with the United States Supreme Court Wednesday a brief attacking President Taft's order of 1909, withdrawing public oil lands in Wyoming and California from entry. The brief declares that the "manifestation to concentrate Governmental power in the President," is revolutionary and dangerous. The safety of the Nation is declared to rest on strict observance of the powers of the three great departments of government.

"With due consideration of all progressive tendencies of the day," the attorneys declare, "and of such wholesome changes as a spirit of reform may properly demand, yet, in matters committed by the Constitution to one department of the Government and not to another, the line of progress and the declaration of changes of policy should come through that department in which the Constitution has vested the power to change National policies."

For Rural Credits

The commission which investigated rural credit operations abroad announces that a bill is being prepared embracing the more important recommendations of the report now before President Wilson. Bills introduced in each house of Congress will form the basis of the Administration's effort to perfect new laws supplementary to the general banking legislation, to relieve financial conditions for farmers and make it easier for them to obtain working capital. The commission will make its report public as soon as it has received the approval of the President soon after his return from the

Oil Suits Transferred

Suits involving oil development operations in the Kern River fields, instituted by Alfred G. Wilkes against the Midway Syndicate, Ltd., in which judgment for \$32,636 is demanded, have been transferred from the Kern County Superior Court to the United States District Court. Cancellation of leases granted the defendants is asked. It is alleged that the defendants have not lived up to their agreement, and are receiving the benefit of thousands of barrels of oil rightfully belonging to others.

Sugar Touches Low Point

All sugar refineries in the East, with the exception of the American Sugar Company, have reduced the price of sugar to four cents per pound less two per cent discount, the lowest level in twenty years.

Extends Telephone Service

During the current year the Pacific Telephone and Telegraph Company will install more than 10,000 telephones in Los Angeles, if the remaining days of this month are like the preceding ones, the number installed up to December 1 being 9300 and for this division 15,475.

Oil Dividends in California

Disbursements by oil companies in California in the way of dividends will approximate \$14,000,000. The largest dividend payer, of course, is the Standar Oil Company, which has been handing its stockholders \$1,125,000 every quarter. The Associated. which resumed payments this year on a basis of three per cent per annum, has paid out over \$3,500,-000 since it was organized, and the total disbursements of its subsidiary, the Amalgamated, amount to \$3,000,000. Two-thirds of the \$25,000 dividend paid by the Sterling Oil Company on Wednesday of this week went to the Associated Oil Company, which owns the controlling interest in the former corporation. The regular monthly dividends of the West Coast and Amalgamated Oil Companies of \$1.50 and \$1.25 a share respectively will also help to swell the cash assets of the Associated, both of the paying concerns being subsidiaries of the big organization. The West Coast disbursement is payable January 24, and the Amalgamated on January 15.

The payments of the Pinal-Dome Company, including the dividends paid by the Pinal and Dome concerns before their consolidation, reach a total of \$1,250,000. The Caribou Oil Company has paid its stockholders nearly \$1,400,000 since its inception, and the W. K. Company has enriched holders of its shares to the amount of \$1,500,000 as the result of the purchase of the company's properties by the Dutch-Shell interests. The Dabney Oil Company. which is supposed to be in liquidation, has just paid a dividend of one-quarter of a cent a share, amounting to \$2500. This payment was made from sales of oil, and it came as a genuine surprise to the stockholders. The total dividends paid by California oil companies since the discovery of petroleum in the States aggregates about \$70,000,000.

Petitions to Resist Bond Votes

Three initiative petitions to amend the State constitution at the 1914 election to provide that none but property owners shall vote to incur a bonded indebtedness in any city, county or political subdivision of the State, have been filed in Secretary of State Jordan's office in Sacramento. Under the provisions of the petitions the right of persons to vote would be determined by the assessment rolls. One of the petitions came from Orange County and contained seventy-three names. The others were from Riverside and Shasta counties and each contained forty-nine

The petitions are the first ever filed proposing to initiate a new section to the constitution. The proposition, it is said, is being fostered by various taxpayers' associations. Thirty thousand signatures are necesary to place the proposition on the 1914 ballot.

Income Tax Returns

Corporations and individuals subject to the Federal income tax, and all who have incomes of \$3000 or more, will have until March 1 to submit their statements to the Internal Revenue Collector. They became due Thursday. The statements must show the net income of individuals or corporations since March 1, 1913, when the income tax law became effective. These reports differ in form as the law covering incomes provides that the special income tax may be withheld at the source of revenue which opens a wide field and may leave some doubt in the individual mind as to whether a return should be made to the Government, and in view of this all should make return. If the tax has been withheld at the source it should be so stated in the return. Proper forms may be had upon application at the office of the collector or by mail.

Regulating Ocean Rates

Unless the United States Courts shall rule otherwise, coastwise shipping rates between one port of California and another hereafter will be under the jurisdiction of the State Railroad Commission. This was decided by the State Supreme Court Monday in an opinion affirming the power of the Commission to regulate the rates of the Wilmington Transportation Company, plying between Los Angeles Harbor and the port of Avalon, on Catalina Island, twenty miles out at sea. Anticipating an appeal to the United States Supreme Court, the State Supreme Court said Monday:

Mexican National Defaults

The National Railway of Mexico and its affiliated properties, on the 1st. inst., defaulted interest on bonds amounting to \$111,000,000. In lieu of the cash payment the companies issued three-year six per cent notes. The bonds on which default was declared consist of \$84,000,000 of National Railways 41/2 per cent prior liens and \$1,374,000 of Mexican Central Railway five per cent priority bonds. Semiannual interest on these issues aggregates approximately \$2,500,000. Until a few days ago it was expected that the coupons will be paid in cash.

Corporations Have Souls

Fourteen thousand men employed on the subway and elevated lines of the Interborough Rapid Transit Company, New York, will receive a \$5 gold piece each for a Christmas present next week. The coins will be newly minted and direct from the Sub-Treasury in the metropolis. All men receiving salaries of \$115 a month or less will be included in the distribution.

Oil Land Suits Argued

The Government land withdrawal suits against the Midway Northern Oil Company and others, involving the ownership of a large tract of petroleum property in Kern County, were argued before Judge Dooling in the United States District Court here yesterday. The matter came up on an application for an injunction on the part of the Government and the defendants' motion to dismiss.

To Build Big Mill

The Mexican Gold and Silver Mining Company has agreed to erect a milling plant to cost \$100,000, at Rochester, Nev., to mill the ores from the twelve producing properties in that region.

Report on State Banks

The State Superintendent of Banks has issued a call for the condition of all institutions in his jurisdiction at the close of business December 24. The reports will not be delinquent until after January 10.

LOS ANGELES PRODUCE MARKET

The egg market declined vesterday to 42 cents on case count with the arrival of 412 cases in a single day, the heaviest receipts of the year up to this time. The demand was good, but not sufficient to keep up the market. Butter was active and there were numerous sales. An attempt was made to raise the price but the highest sales were made at 28½ and then down again to 28. The San Francisco market continues steady and at the

same figure.

The higher price of cheese, particularly eastern varieties, may be attributed to the manipulation of the big packing concerns of the country, according to recent reports from the East. It is said that the central point of their operations is Marshfield, Wis.. the center of the cheese industry of the Middle West. That the packers are entering more into the dairy business is conceded and in Los Angeles the greatest portion of cheese is handled by the local branches of eastern concerns. A government investigation is to be started in the East. inquiring into the real status of the packers relatively to restraint of trade and higher prices. There was some local trading in the commodity, northern full cream and eastern sell-

ing. Receipts were 4300 pounds.

The spud market continued unsettled, but showed an inclination toward a firmer market with a decrease in receipts for a few days.
